

Professional Licensure and Certification Requirements

Certain programs offered by Florida National University are designed to meet educational requirements for a professional license or certification that is required by state law for a graduate of the program to obtain employment in a specific occupation. The following disclosures contain information about the states in which our relevant programs are designed to meet the educational requirements for a specific license or certification.

Requirements for professional licensure and certification vary from state to state, and prospective students are responsible for understanding the requirements in the state in which they plan to work after graduation. FNU does not guarantee that a student will obtain licensure, certification or employment. Please note that the following information relates only to the educational requirements for the licenses and certifications listed below. Other requirements and prerequisites may apply to these licenses and certifications, such as requirements that an applicant successfully complete a criminal or other background check.
